DEV SKILLS

GIT + GITHUB *HTML + CSS* *JAVASCRIPT + JQUERY* *ANGULAR.js* *FIREBASE*
HTTP + REST *PASSPORT.js* *MONGODB + MONGOOSE* *NODE.js + EXPRESS.js*

PROJECTS

DEVMTN RESOURCES — Worked with team to develop full MEAN stack app according to customer specs, for use by web dev community to aggregate, browse, and rank learning resources.

RECUR — Web app for managing recurring monthly subscription services. Personally authored all code, using full MEAN stack. Researched and implemented cron-based email reminders.

PROVO DICTIONARY — Navigating Utah Valley can be difficult without familiarity with the local vocab. A special lexicon built using Angular, Firebase, and Bootstrap.

EXPERIENCE

DEV MOUNTAIN — Junior Web Developer / Mentor   Summer 2015
- Completed full-time, three-month web development bootcamp
- Gained strong understanding of JavaScript and full-stack (MEAN) methodologies

PLEASANT GROVE CITY — Prosecutor   Jun 2014 - May 2015
- Prosecuted all stages of all criminal cases for the city, averaging over 900 annually, from charging and negotiation to trial and probation reviews
- Coordinated with law enforcement, victim advocates, other attorneys, and judges

UTAH COUNTY GOVT — Law Clerk & Attorney   Mar 2014 - April 2015
- Substituted in court as needed; wrote and edited felony motions, briefs, and memos
- Supervised the workflow of a team of interns

BYU, LINGUISTICS DEPT — Teaching & Research Assistant   Sep 2009 - Nov 2010
- Instructed Perl class often in absence of professor; developed lessons and homework; researched various translation software solutions and text processing applications
- Completed introductory training in Java and C#

BYU, HTRSC — Computer Lab Tech   Dec 2008 - Nov 2011
- Maintained hardware and software in 5 labs (40 computers each) with team
- Assisted students and professors with computers, programming, printing, etc.

EDUCATION

Brigham Young University Law School   Juris Doctor   Dec 2013
Brigham Young University   BA Linguistics Computing   Apr 2011
